

The Stewards Commitment

We stand for the possibility that Covington becomes a unique living experience that...

Inspires pride and community among current residents and stakeholders; and attracts new residents, businesses and tourists through...

1. An economically revitalized, pedestrian-friendly downtown that benefits and serves all neighborhoods;

2. Rivers that serve as engines of economic and neighborhood growth;

3. An interconnected network of green space, parks and recreation areas;

4. Focal points that define neighborhood identities and attract daily community gatherings;

5. Transportation systems that foster a walking/biking culture and link neighborhoods with each other and to downtown;

6. Home ownership, quality rental and building code enforcement that create beautiful streets.
